PROJECTS

Real Estate Platform (Full stack)

Links : Live Links | Front-end github | Back-end github

Features :

- Tailored dashboards for users, agents, and admins, enhancing user experience.
- User features include profile management, wishlists, property history, and review access. Secure offer system with price validation; agents manage requests/offers efficiently on their dashboard.
- Streamlined property addition by agents with essential details. Admin verification impacts property visibility; users access a comprehensive admin-verified property listing.

Technologies: React JS, Tailwind CSS, Material UI, Firebase, Stripe JS, JWT, Node.js, Express.js, MongoDB.

Food Sharing (Full stack)

Links : Live Links | Front-end github | Back-end github

Features :

- Effortlessly browse, search, and sort free food listings for quick access to desired items.
- Secure platform with mandatory authentication for registered users to donate and request food, enhancing privacy.
- A two-way system promotes community-driven sharing, enabling donors to add listings and those in need to request specific items

Technologies: React JS, Tailwind CSS, Daisy UI, Firebase, JWT, Node.js, Express.js, MongoDB.

Electronics Shop (Full stack)

Links : Live Links | Front-end github | Back-end github

Features :

- Intuitive brand-based navigation for users, enabling direct access to product pages by clicking on brand images.
- Facilitates a user-friendly exploration of products within their preferred brands. User account functionality with mandatory authentication for enhanced security.
- Streamlined shopping cart functionality allowing users to add, view, update, and remove items.

Technologies: React JS, Tailwind CSS, Daisy UI, Firebase, Node.js, Express.js, MongoDB.

LANGUAGE : Bangla (Native), English (Comfortable), Hindi (Comfortable)

SOFT SKILLS : Communication, Collaboration, Conflict Resolution, Adaptability, Leadership, Presentation, Problem-solving
