SUMMARY

As a recent graduate, I have gained extensive knowledge and hands-on experience in various programming languages such as JavaScript, React, Redux, Next.js, CSS, Express.js, MongoDB, and Firebase. With a strong foundation in web development, I bring a fresh perspective and enthusiasm to every project. My expertise in crafting visually captivating and user-friendly web applications is top-notch, and I always ensure to adhere to industry standards and guidelines to create top-notch products.

My dedication to precision and creativity makes me an ideal fit for collaborative, multidisciplinary teams. I am passionate about applying my skills to cutting-edge projects and learning new technologies to stay ahead in the constantly evolving tech world. Currently, I am pursuing a BBA Honours degree in the Management Department, which has provided me with a solid foundation in business management. With my unique blend of technical and business skills, I am confident in my ability to contribute to any project and team.

EDUCATION

Degree	Institute	Board	CGPA	Year
SSC	A.R Khan High School, Barisal	Barisal	4.50	2015
HSC	Amritalal Dey Collage, Barisal	Barisal	3.56	2017
BBA Honours	Govt Brojomohun Collage, Barisal	NU	N/A	Ongoing

TECHNICAL SKILLS

Expertise: JavaScript, React.js, HTML, CSS, Tailwind CSS, Bootstrap, React Router
Comfortable: Express.js, Redux, MongoDB, RESTful APIs, Firebase, Material UI
Familiar: Node.js, UI/UX Design, WordPress, Socket.IO, Typescript, Mongoose, Next.js,
Tools: GitHub, Git, Figma, VS Code, Chrome Developer Tool, CLI, Axios, React Query, RTK Query

I possess strong expertise in JavaScript, React.js, HTML, CSS, and popular front-end libraries like Tailwind CSS and Bootstrap, enabling me to create captivating and responsive web interfaces. Additionally, I am well-versed in React Router, allowing for seamless navigation in web applications. I'm proficient in Express.js, Redux, and MongoDB, enabling the development of robust and data-driven applications, and I'm comfortable working with RESTful APIs and Firebase. I also have experience with Material UI for crafting visually appealing designs. My familiarity with Node.js, UI/UX design, and various tools like Git, Figma, and VS Code, further enhances my ability to deliver high-quality web solutions. With a strong foundation in web development tools and technologies, I am well-prepared to contribute to innovative projects.

INTERPERSONAL SKILLS

Communication, Collaboration, Conflict Resolution, Adaptability, Leadership, Presentation, Problem-solving, Time Management, Team Building, Cultural Sensitivity

PROJECTS

BIOMED, MERN, and Team Project | **Github** => Client, Server | **Live site** => https://biomed-3abc5.web.app/

Technologies: React, Firebase, MongoDB, Express.js, Socket.IO, Firestorage, React-Router, JWT, Stripe

Overview: BIOMED is a platform that evaluates tasks and rewards users for completing them. Users can apply for tasks and receive rewards upon successful completion. The platform allows for communication between users and instructors through messaging and video calling. Instructors evaluate tasks once they are submitted by the users.

- Real-time Communication: Users, including instructors and students, can seamlessly engage in real-time messaging and video calls, fostering efficient collaboration.
- Integrated Video Conferencing: The platform incorporates user-friendly video conferencing capabilities, available both on the main website and within the Community page, promoting accessibility and enhancing user engagement.
- Role-based Dashboards: Upon class enrollment, individuals are provided with personalized dashboards tailored to their specific roles, streamlining their interaction and experience within the platform.

MusicMaestro, MERN Project | **Github** => Client, Server | **Live site** => https://musicmaestro-2b4f6.web.app/

Technologies: React, Firebase, MongoDB, Express.js, JWT, Axios, React-Query, React Router, Swiper

Overview: MusicMaestro is a comprehensive music learning platform. Students receive tailored dashboards upon class enrollment, ensuring an intuitive and unique learning experience.

- Personalized Dashboards: Students receive personalized dashboards upon class enrollment, providing them with a unique and intuitive class experience tailored to their needs.
- Secure Payment System: Our secure payment system, powered by Stripe, guarantees the safety of all transactions, instilling trust and reliability when students sign up for classes, and ensuring a worry-free enrollment experience.
- User Authentication: The website uses Firebase and JWT to make sure that only authorized users can access it. This helps keep your information safe and secure when you use the site.

VERTEX Blog Website, MERN Project | **Github** => Client, Server | **Live site => https://vertex-32ce6.web.app/**

Technologies: React.js, Redux, RTK Query, Express.js, MongoDB, TailwindCSS

Overview: VERTEX is a feature-rich blog website that enables users to explore and create content. Registered users enjoy personalized dashboards for managing their blogs.

- Blog Reading and Writing: Users can browse and read blogs posted on the website. Additionally, registered users can write and publish their own blog posts.
- User Dashboard: Registered users have access to a personalized dashboard where they can view and manage their own blogs. They can also delete their own posts from this dashboard.
- Interaction and Analytics: Users can comment on blog posts, and authors can see how many people have read their blogs and how many comments each blog has received.

PERSONAL INFORMATION

Name	: Sourave Halder
Father's Name	: Narayan Halder
Mother's Name	: Sandhay Rani
Date of Birth	: 06-11-1998
NID	: 4202637881
Height	: 5.7"
Weight	: 58 Kg
Blood Group	: O+
Religion	: Hindu

LANGUAGES

Language	Listening	Reading	Writing	Speaking
